NOTES: Unless otherwise specified.

- The printed circuit assembly workmanship shall meet the requirements of Acceptability of Electronic Assembly (IPC-A-610, class II, latest revision).
- Square pad or dot indicates pin 1 of devices, + end of capacitor, cathode end of diode or emitter or transistor and pin 1 of connector.
- Reference placement file for all component locations. In case of discrepancies between the placement file and the assembly drawing, the placement file takes precedence.
- Use no-clean process. Aqueous cleaning is prohibited.
- Printed circuit board assembly process and materials used must be compliant with the restriction on use of Hazardous Substances (RoHS) Directive.
- Place a 2.0" x 0.25" barcode label with assembly part number/revision and serial number at dedicated silkscreen block.
